PROFESSIONAL SUMMARY

Junior Fullstack Developer with hands-on experience designing and building modern web applications using **Next.js**, **TypeScript**, **FastAPI**, and **PostgreSQL**. Currently completing a Higher Technician degree in Multiplatform Application Development (DAM) at Ilerna Madrid, with real-world company experience working across two interconnected teams (backend ADV and fullstack CRM) on a unified real estate platform. Solid background in RESTful API integration, secure authentication with FastAPI, complex data modeling with PostGIS, and collaborative Git workflows (feature branches, Pull Requests, code reviews). Trilingual profile (French C1, Spanish B2, English B1), combining a strong technical foundation with business awareness from a previous Bachelor's degree in Management Sciences. Available for immediate start.

TECHNICAL SKILLS

Languages	Python, JavaScript, TypeScript, Java, SQL, HTML5, CSS3, Kotlin
Backend	FastAPI, Python, RESTful APIs, Repository Pattern, JWT, Authentication
Frontend	Next.js, React, TypeScript, Responsive Design, HTML5/CSS3
Databases	PostgreSQL, PostGIS, MariaDB, MySQL Workbench, Relational Modeling
Tools	Git, GitHub, Workflows (feature branches, PRs, code review), Figma, WordPress
Mobile	Android (Kotlin), React Native, Android Studio
APIs / Integration	Google Maps API, Gemini API (chatbots), REST, JSON
Methodologies	Agile, Teamwork, Object-Oriented Programming (OOP)

PROFESSIONAL EXPERIENCE

Junior Fullstack Developer Intern

Mar 2026 – May 2026

IRG Enterprises — Madrid, Spain

Stack: Next.js · TypeScript · FastAPI · PostgreSQL · PostGIS · Python · Git

Real Estate CRM Platform · Contributed to two interconnected projects within the same platform, working in parallel between the **ADV** team (5 people) and the **CRM** team (4 people).

- **ADV Project (Backend-focused — team of 5):**
 - Built the **complete authentication system**: login, session management, and route protection using FastAPI Depends().
 - Designed and implemented **RESTful APIs** later consumed by the CRM module.
 - Contributed to **complex data modeling**: properties, clients, activities, and PostGIS-based geolocation.
- **CRM Project (Fullstack — team of 4):**
 - Reassigned to the CRM team after completing ADV's APIs, ensuring **seamless integration between both modules**.
 - Designed a **relational database with 17 tables** (agencies, clients, properties, mandates, KPIs, historical records).
 - Developed **RESTful CRUD APIs** (clients, orders, properties) applying the **Repository pattern**.
 - Implemented the frontend design system: **dynamic tables, advanced filtering, and multi-tab detail views**.
 - Modeled the full real estate business architecture: *property* → *listing* → *mandate* → *order* flow.
 - Structured Git workflow: feature branches, Pull Requests, and code reviews.

Web Developer Intern

May 2025

IRC Enterprises — Madrid, Spain

Stack: WordPress · MariaDB · Google Maps API · JavaScript · REST APIs

- Built a **real-time GPS tracking system** for a fleet of food trucks.
- Integrated the **Google Maps API** with the WordPress backend and MariaDB database.
- Implemented real-time vehicle location visualization on a custom dashboard.
- Developed **distance calculation and Estimated Time of Arrival (ETA)** features.

Administrative Intern

Jul 2022 – Sep 2022

La Rose Blanche — Tunisia

- Performed invoice validation and accounting processes using the **Sage X3 ERP**.
- Supported financial administration tasks and reporting workflows.

Customer Service Intern

Jun 2021 – Sep 2021

Post Office — Tunisia

- Delivered front-desk customer service in a high-traffic environment.
- Managed postal transactions: franking, receipts, and payments.

KEY PROJECTS

Final Degree Project (TFG) — Web App with AI Chatbot (Gemini)

2026

Final Project · Ilerna Madrid

Stack: [HTML5](#) · [CSS3](#) · [JavaScript](#) · [MySQL Workbench](#) · [Gemini API](#) · [Responsive Design](#)

- Built a **fully responsive web application from scratch** using HTML5, CSS3, and vanilla JavaScript.
- Integrated an **intelligent chatbot** via the Gemini API (Google AI).
- Modeled and managed the **relational database** using MySQL Workbench.
- Designed for mobile, tablet, and desktop devices (mobile-first approach).

EDUCATION

Higher Technician in Multiplatform Application Development (DAM)

2024 – 2026

Ilerna Online — Madrid, Spain

- Relevant coursework: Java Programming, Databases (SQL), Interface Development, Multimedia and Mobile Device Programming, Data Access, Enterprise Management Systems.

Bachelor's Degree in Management Sciences — Finance Specialization

2020 – 2023

Institut des Hautes Études Commerciales de Sousse (IHEC) — Tunisia

Baccalaureate — Economics & Management

2019 – 2020

Tunisia

LANGUAGES

Arabic	Native
French	C1 — Advanced
Spanish	B2 — Upper Intermediate
English	B1 — Intermediate

VOLUNTEER EXPERIENCE

Volunteer Team Coordinator

Leo Club Sousse Stars — Tunisia

- Coordinated a team of volunteers across community initiatives and organized training sessions and outreach activities.
- Took part in social campaigns distributing food and clothing to communities in need.
